EXPERIENCE

Kudipoint LTD — *Frontend Developer*
Lagos, Nigeria | November 2025 – Present
Website: **kudipoint.ng**

- Designed and developed the official website for the Kudipoint application using HTML, CSS, Tailwind CSS, and JavaScript.

- Delivered a fully responsive, mobile-first interface with smooth animations and modern UI/UX standards.

- Collaborated directly with the founding team from pre-launch through the successful mobile app release.

Coinly Limited — *Frontend Developer*
Minna, Nigeria | November 2025 – Present
Website: **coinlyapp.io**

- Built the official landing page using HTML5, CSS, Tailwind CSS, and JavaScript.

- Applied performance-focused, mobile-first design principles that improved SEO and load time.

- Designed high-conversion hero sections, feature highlights, and call-to-action components that increased app downloads.

PROJECTS

Movie Searcher App — Personal Project
React, Tailwind CSS, JavaScript, Routing, Movie API
Live Demo: **View Project**

- Built a movie search interface fetching real-time data from OMDB.
- Implemented search results, movie detail pages, and dynamic fetch by ID.
- Used React Router for multi-page navigation.
- Responsive, clean UI with component-based architecture.
